Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 August 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. The prior rejections of claims 1 through 7 and 11 through 24 under 35 YSC §112, second paragraph have been overcome by the response filed 20 August 2007.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5 through 7 and 13 through 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hall (U.S. Patent No. 6,484,473) in view of Massarsch (U.S. Patent No. 5,085,539).

Hall '473 discloses a method of making a flat foundation for a floor characterized by that at least one layer of cellular metallic material (12; col. 2, lines 28 through 33) in unfolded state is laid down onto a background (18), then the cellular material is overfilled with fill (Claim 1). Hall '473 further teaches the use of at least one geotextile (col. 5, lines 1 through 5).

Hall '473 fails to teach:

the metallic material being foil; and

the step of compacting.

Massarsch '539 discloses a method for damping vibration between a layer of earth and structure, the method comprising the use of a casing (9) comprising multiple cells (14) of aluminum foil (col. 3, lines 35 through 43).

It would have been obvious to one having ordinary skill in the art at the time of invention to modify the method and apparatus disclosed by Hall '473 such that the metallic material would be made from aluminum foil as disclosed by Massarsch '539. The motivation would have been to use a lightweight, inexpensive metallic material.

Response to Arguments

5. Applicant's arguments filed 20 August 2007 have been fully considered but they are not persuasive.

In response to Applicant's arguments relating to Hall '473, the Examiner notes that Applicant has based his arguments on the section of the disclosure directed to the prior art.

In response to Applicant's arguments that Hall '473 fails to teach the step of compacting, the Examiner contends that compaction of the fill material occurs by gravitational force.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
